

The POWER of Smart, Simple and Integrated Church Management Software

Church management software by SimpleChurch is designed to assist churches and other related organizations with structuring and managing all aspects of daily operations. Smart and integrated cloud-based software will help organizations get organized and simplify administrative tasks, events, outreach, communications, manage donations, track finances and membership growth.

Generosity

Foster generosity with giving solutions that are available anywhere and anytime. Receive donations or event payments by web, social media, text, kiosk or through a fully customized mobile app.

Care & Equip

Automate tasks and improve attendee and guest care follow up that supports your ministry with an all-in-one integrated platform.

Communication

Communicate with your attendees and guests on their terms through any device using text, email, voice messages or push notifications. Do it all from a single location, in seconds.

Accountability

Powerful accounting solutions to ensure complete fiscal accountability for and to your donors.

Outreach

Attract guests and future attendees with modern easy to update websites and mobile apps.
